

We missed you - but very soon it will be time to meet again. We now have a clearer roadmap as the Dental Council has now given their permission for us to reopen for routine appointments.

As always, your safety and the safety of our staff is very important. Due to the need for safe social distancing and other protective measures that will be required at this stage, we will be unable to operate at the same capacity for at least a few weeks after we reopen. Therefore, it will not be possible to see everyone as quickly as we or you would like us to.

Fortunately, the Dental Monitoring system which we introduced for your benefit has worked very well and I have been able to guide the treatment and reviews of most of my patients during the period of time that we had to remain closed. If you have not used the system yet, I appeal to you to please do so between now and May 15th - please contact us by email as soon as possible if you have yet to activate the link that was emailed and wish to have it resent.

When we do we open our doors for routine appointments, there will be restrictive measures in place so that we can all respect social distancing. Remember that these measures will be put in place for the safety of everybody and in order to continue our social responsibility to flatten the Covid-19 curve.

Next week (week beginning Monday, May 11 ), we will be contacting patients in order of perceived priority. If you are having any problems with your braces at present, please contact us by email ([info@crottyorthodontics.ie](mailto:info@crottyorthodontics.ie)) or by telephone ( 021 4291104) as soon as possible so we can arrange an online review.
